Music and teen suicide

Music has always played an important role in life. Singers express themselves through their music, or sometimes express the feelings of a person close to them. Whichever way you listen to it, you always hear how they found love or how they overcame a very tragic past. Music and teen suicide - does music affect the way teens think? Do they turn to

music when things go wrong? Yes, they do. Teens find anything to release frustration and anger, and if it is not drugs they turn to, it will be their favorite artist and the song that closest resembles the situation they are in.

90% of teens thinking of suicide today listen to the music of their favorite artist expressing themselves in the same or similar way, but around 35% of teens commit suicide to the music they listen to. The reason for this is because they feel the pain the singer is going through and this way they do not feel alone. Music and teen suicide is a problem.

Stories have been around about a teen that committed suicide to one of his favorite bands. The song that he was listening to at the time was from a well-known band, and the teen's parents found the boy hanging by his neck and the song that was playing was from his favorite band. Parents have to pay attention to their children, because when a teen is depressed or angry, 70% percent of the time they will not express themselves and tell you how they are feeling. Isolation and music will be the way out. Things will get too much and that is where music and teen suicide will come in.

No one else will listen to them, so they will sing along to their favorite band until they fall asleep with the song still playing in their head. They wake up to their music and think about nothing else but their music. Teen and suicide is the only way to solve a problem and find a solution. If no one pays attention to them, what would it matter if they were gone? This is how they think.

Teens thinking of suicide can close up completely and not allow anyone in. They can assure you that everything is hunky dory until you turn your back. Give your undivided attention to your children when you sit down and talk with them. Let them see that you have all the time in the world for them, even if the food is burning on the stove. You only have one chance to show them that you want to help in a situation like this, because they are not just looking for attention.

The thing I think about music is that it sends out a either good or bad messages that will have a big impact on kids actions and ideas. Unlike times in the past music is creating a gap and separating kids into groups.

Now I know I can tell if a group of people lessen to rap music or not. Just by the way they walk, talk, and dress. And I for one think that rap music is sending out a bad message to everybody.

And most Goth and EMO music gets kids to cut and try to kill themselves. Crime, drugs, suicide, and teen pregnancy are all influenced by music. I've seen it time and again.

Now the thing that kids and mostly teens need to keep in mind is that these artists are just trying to make bank on the oh so many problems that teens today have.

Things like lost love and ghetto neighborhoods. Most of the rappers that are famous today grew up in first-class neighborhoods. They just know how to make money. You can't trust people you don't know. I've gotten robbed by guys who thought they were being just like their favorite rappers.

I myself have done drugs and involved myself in gang activity. And most of my bad ideas came from the music I liked at the time. But when I stopped doing drugs and lessening to rap music I started thinking for myself.

And now I'm a freethinker. I now you want your so called friends to like you and you want to fit in-but when you're in jail or getting shot at because of the colors you're wearing, the last thing on your mind will be how much people like you.

And if your friends stop liking you because of the things you do and don't like... then they're not your friends. True friends are a hard thing to find in life. But when you find a true friend hanging out with people who you know are not true friends will seem empty to you.

I'm fifteen and I know many things about life. And bad friends have left a scar on me too. When I was ten years old I started smoking cigarettes and weed because my "friends" said it was cool. But it isn't really.

Remember, when it comes to what is right and what is wrong, you'll know what to do.

Music has a definite effect on people, animals, and plants. In fact it can have a powerful influence on our body, mind, and emotions. Music with a 'beat' can stimulate your body; music with powerful melodies and harmonies performed with feeling can make you weep or cry out with joy; and music like the fugues of Bach and Mozart can be mentally invigorating. Every Hollywood movie producer is aware of the power of music, and that is why it plays such a key role in motion pictures. The music that accompanies movies grabs our feelings.

Often when I talk about a particular kind of music having a particular kind of effect, I am told: "But that simply can not be true. Music effects people in different ways, or the same person differently at different times." Music may seem to effect people differently, but that is because people can react differently to the music. We are able to apply a filtering process to the music we hear. If someone hates jazz, then a jazz piece with a positive effect will probably not make him feel good. But actually what we are talking about here is a filter. A filter is something that changes something that is passed through it by allowing only a certain part to pass through. We all have our built-in filters, our likes and dislikes, that can block the direct effect that music might have. A happy song might appear to make an angry person angrier, yet it is not the music itself that is creating the anger; rather it is the positive effect of the music. The angry person does not want to accept the song's happy feeling: it points out his already existing anger, and makes that anger come to the surface.

Goth will Destroy Your Child!

by David J. Stewart

Goth is a deplorable type of heathen culture that glorifies everything that is vile and unholy. The dictionary defines "Goth" as: *A crude uncouth ill-bred person lacking culture or refinement.* This pretty much sums up the Goth culture today. Goth glorifies things that are sick, nasty, improper, freakish, and downright demonic. Goth is NOT just the music. In fact, not all Goths listen to Goth music.

The Goth subculture is a contemporary subculture found in many countries. It began in the United Kingdom during the early 1980s in the gothic rock scene, an offshoot of the post-punk genre. The Goth subculture has survived much longer than others of the same era, and has continued to diversify. Its imagery and cultural proclivities indicate influences from

nineteenth century Gothic literature along with horror movies and -according to César Fuentes Rodríguez and Carol Siegel- to a lesser extent, the BDSM culture.

The Goth subculture has associated tastes in music and fashion, whether or not all individuals who share those tastes are in fact members of the Goth subculture. Gothic music encompasses a number of different styles. Common to all is a tendency towards a lugubrious, mystical sound and outlook. Styles of dress within the subculture range from death rock, punk, androgynous, medieval, some Renaissance and Victorian style clothes, or combinations of the above, most often with black attire, makeup and hair.

SOURCE: [Goth subculture - Wikipedia, the free encyclopedia](#)

The term "Goth" refers to all categories of Gothics, from Emo 'Goths' to black metal 'Goths' to vampire 'Goths'; from thrasher 'Goths' to punk 'Goths' to industrial 'Goths.' "Goth" is just a word the media uses to group a certain type of people together. The Goth culture includes Emos/ punks/ Wiccan witches/ self-abusers/ thrashers/ grungers/ heavy metallers, et cetera. This includes the Marilyn Manson, AC/DC, Smashing Pumpkins, Van Halen and Ozzy Osbourne crowd as well.

Goth causes teenage girls to become whores, depresses kids to the point of cutting themselves, and turns otherwise normal kids into Columbine shooters. The Goth culture is obsessed with death and the darker side of life, which is clearly evidenced in Goth music. Goth is of the Devil.

Goth in itself is a mental illness, a sickness of the soul, mainly affecting teenagers in the same way as schizophrenia would, although to a greater extent. Its symptoms range from isolation and negativity to aggression and hate for humanity, depression, violent outbursts, low self esteem, self-loathing, self-harming and suicide. Many Goths turn to a life of crime to feed their addiction to drugs, sadism, violence and perversion.

There is a theme running through all these different types of gothic groups, and a common fashion and dress that all tribes of Goth wear. The clothing is usually dark and sinister looking, sometimes called the 'gothic uniform.' Goth women often wear black lip stick and paint their eyes so dark with mascara that they look like vampires. Goths are all obsessed with death and despair, with terror and violence, and most Goths use drugs as a form of everyday life. Some abuse their children, perform Satanic rituals, and drink human blood.

Goths would have us believe that the Columbine Massacre was just an isolated incident; however, here are some alarming statistics:

 - USA - California, Goth Scott Dyleski, age 16, arrested for the brutal bludgeoning murder of Pamela Vitale, age 52. Vitale was the wife of well-known defense attorney and legal analyst for various cable news outlets, Daniel Horowitz.

These are but a few of thousands of recorded mainstream news events involving Goth killers. To say that the Goth subculture isn't dangerous is to be very ignorant indeed. Goth is of the Devil.

The Dangers of Rock Music

Over 30 years ago a woman named Dorothy Retallack conducted experiments using music, plants and their combined environment. These results are famous.

Taking two identical sets of plants in two separated but identical rooms, she exposed them to music. The first set of plants were played quiet placid subdued devotional "religious" classical music, while the other set were subjected to loud aggressive rock music played at full deafening volume 24 hours a day. The plants exposed to rock grew away from the music source, withered and died, while the plants that were played religious music grew towards the music source and thrived.

The lesson? If rock music attacks and kills plants, what does it do to people? I think it's rather obvious - it does the exact same thing! Rock music attacks the nervous system, affecting one's emotional state. Is it any wonder why Americans, now more than ever before, are blowing-up in anger, flying off the handle, committing suicide, and losing their minds?

Goth is particularly dangerous because the lyrics to the music often glamorize killing, brutality, sadism, masochism, pedophilia, torture, freakism, and all sorts of heathendom. The music is often characterized by relentless yelling and screaming, freakish embellishments of the voice, evil sounding backgrounds, etc. There just a bunch of sickos. Magician, [Criss Angel](#), has made millions of dollars with his "Mind Freak" series, and he definitely fits in well with the Goth freak culture. Criss Angel's theme song is characterized by his own voice screaming "mind freak" repeatedly at the top of his lungs. This is Satanic. We read in the Bible in Philippians 2:5, "*Let this mind be in you, which was also in Christ Jesus.*" God doesn't want us to walk around singing "mind freak" (which a person cannot help but hear repeatedly in their memory after watching one of Criss Angel's shows). Satan is the freak of freaks. Jesus called Satan the father of all liars (John 8:44).

Goth is a Destructive Influence on Children

A mother who looks and dresses like a sick circus freak, who harms herself in front of her children, who is obsessed with death and suicide, who holds BDSM (i.e., Bondage, Domination, Sadism, and Masochism) parties that consist of bondage and rape, is hardly a fitting role model for children. That is why Christians ought to be taking a stand against this heinous evil in society.

Goth is often associated with sexual immorality and pedophilia. And now we are finding websites that sell gothic clothing for children as young as kindergarten age, so that their sick gothic parents can dress their kids as Halloween freaks just like themselves. Some websites are even selling 'bondage' clothing for babies! For babies? Don't you find that wrong and sick? Not just from a Christian point of view, but just plain ole common sense. No wonder children are so messed up nowadays, because their parents are freaks.

It is not difficult to let Lucifer into your home (1st Peter 5:8). The Apostle Paul prophesied in 2nd Timothy 3:6 of the future time when lustful men would *creep into houses, and lead captive silly women laden with sins, led away with divers lust*. From the witchcraft of Sabrina, to the lewdness of Hugh Hefner; from the whores of *Desperate Housewives*, to the demonic New Age indoctrination of Oprah Winfrey; from the homosexuality of *The Ellen DeGeneres (Degenerate) Show*, to the lasciviousness of nearly every prime time TV program—Americans have opened the door wide for Satan to creep right into our homes. In fact, Satan doesn't even need to creep his way into our homes anymore, because the average American willingly INVITES Satan into their home through the DEVILVISION! Most people don't care what they watch anymore. The TV does the exact OPPOSITE of what the Word of God does. Television DESENSITIZES people to sin; whereas the Word of God SENSITIZES us to sin... *that sin by the commandment might become exceeding sinful* (Romans 7:13).

Goth and Satanism

Photo to Right: Album cover for one of the top Goth bands, "The Cult." Ram and goat horns are extremely popular amongst Satanists. [Paul McCartney](#) even produced an album in 1971 titled, "RAM," to show his allegiance to Satan. Check out the [Rolling Stones' 1973 album, "Goat's Head Soup."](#)

I could publish an entire website just addressing the demonism which saturates the

Goth movement. The Goth culture is the consequence of a nation that has turned its back on God. Rock n' Roll was seemingly innocent back in the 1950s (but it wasn't). Then in the 1960s we saw the British Invasion, bringing with it the *Rolling Stones*, *the Beatles*, and other heathen bands. Illegal drug abuse flourished in the 1960s, fornication became epidemic, and a nation decided that the Bible was incompatible with their new amorality. So in 1962 the Bible was banned from the Public School System. The 1970s naturally led to the passing of legalized abortion laws, to address the epidemic fornication problem (and all the unwanted babies). The 1970s began with the introduction of Satanism and occult imagery into much of the Rock music. The [Church of Satan](#) was founded on 06/06/66 by Anton LaVey, whose picture appears inside the *Eagles' Hotel California* album cover.

Goth deliberately crosses all the lines of proper dress, manners, refinement, and decency. Goth picks up where Rock 'n' Roll leaves off, offering a course in advanced rebellion, sexual immorality, and Satan worship. The Goth crowd is truly living at the bottom of the barrel of life, right where Satan wants them. Wiccan witches are naturally attracted to Goth, because they are Luciferians themselves, who worship [hundreds of pagan deities](#); but vehemently deny the Lord Jesus Christ.

Conclusion

Goth is a degenerate form of subculture, that brings with it hate, loneliness, heartache, and woe. It is sin-centered music (if you dare call it music). If you are a parent, please steer your teens away from this perverted culture of death and hatred. If your daughter comes home from school one day with dark mascara around her eyes, and wearing black clothing, she's being influenced by the wrong crowd at school. Be a parent! Put your foot down! Be as loving and kind as possible, but if that doesn't work, then be aggressive and say "NO!" It will be a cold day in Hell before any child of mine is going to tell me what, where, when, or how they're going to run their life. As long as I'm paying their bills, and they reside under my roof, then I make the rules! That's being a good parent. If you train your children while they're still young, then you will eliminate a lot of necessary conflicts when they become teens. I am amazed when I hear teenagers cursing their parents. That shouldn't be. The key is tough love. If your kids KNOW that you love them, then they'll give you their heart. So many parents neglect their kids, by allowing the TV to raise them, and letting them run the streets all hours of the night. I hate that commercial which says, "It's 10 o'clock, do you know where your child is at?" That's a lot of bologna! You had better know where your child is at AT ALL TIMES!!!

Do not allow your children mom and dad to associate with Goths. I am a stickler for knowing exactly who my children are hanging around. I don't want my children associating with homosexual teenagers. I don't want my children hanging around creeps, freaks, or troublemakers who are headed for

destruction. Goths are infatuated with vampires, witches, the color black, torture, self abuse, and anything freakish. Goth is extremely luring to lonely teenagers who don't seem to fit in anywhere, because Goth is all about being a social misfit, i.e., a freak. Parents are mostly to blame for not spending quality time with their teens. Listen parent, you ought to be best friends with your teen. A teenager who is loved by their parents won't have a need to identify with others who are in their same lonesome boat. If you don't make time for your kids, the Devil certainly will. Notice I said "make" time. Life is hectic nowadays, and there's always too much to do, and there's never enough money to pay the bills. Forget the overtime! You spend some quality time with your teens on a regular basis.

If you are into Goth yourself, then I ask you as a friend to come to the Lord Jesus Christ, who is a friend that sticketh closer than a brother. You don't need to identify with the Devil's crowd anymore. Goth represents everything that is evil and unholy. Aren't you tired of running from God? God loves you, no matter who you are, or what you have done. [God loves sinners.](#)

IN THE MEANTIME, HERE IS A SHORT LIST OF ANTI-CHRISTIAN MUSIC THAT SHOULD BE AVOIDED LIKE THE PLAGUE TO ALL WHO WISH TO BE IN GOD'S FAVOUR.

People have been asking us what albums are 'safe' to listen to. Obviously we feel it's not who you should be listening to, it's who you should be protesting against that counts. Burning records and smashing up CDs of the most sick and anti-Christian artist.

As a good guideline, if you are unsure in any way ask yourself this. Does the band / music you wish to listen to include any of the following themes -
Rebellion
Violence
Nihilism (belief in nothing)
Escapism
Drugs / Alcoholism
Sexual Perversion, Self-Mutilation
Dissonant / Offensive Sound
The Occult

Satanic spells shall be cast upon all humans
Living in the faith of a dying god
Praying for their lives they shall be ripped to pieces
Burning their temples of christ, havens for their weak minds

Our legion is growing by thousand souls and thousand more
Each soul taken joins our infernal legion
Behold the mighty legion of fallen warriors
Blood is running along the ground

Those feeble creeps shall be possessed by our demonic might
Fire, screams and fierce destruction shall echo throughout the night
Open the gates to the heavenly kingdom
Submit to our black ways and drink the blood of angels

Our legion is growing by thousand souls and thousand more
Each soul taken joins our infernal legion
Behold the mighty legion of fallen warriors
Blood is running along the ground

Blood and lifeless bodies spread over the plain
Open the gates to the heavenly kingdom
god almighty is crying as his herd is slain
Let the tears rain, show the world your fear

With the moon comes the mist that surge over the plain
As souls of fallen warriors are swarming above
Smell the stench of death hear the sound of cries
Victorious chant of demons haunt this night of despair

Our legion is growing by thousand souls and thousand more
Each soul taken joins our infernal legion
Behold the mighty legion of fallen warriors
Blood is running along the ground
