Sometimes we find most comfort in that which is least our own doing, and into which we have been led by God.

### What Does it Mean? (1 Samuel 15:22)

The right thing is to always obey God. Saul proves in this passage that you cant just do whatever you want, even if it seems okay. God wants you to obey Him. Saul thought he could just take over and revise God's instructions to suit himself. God was really disappointed with Saul's disobedience and took away his title as king. The bible is God's word of instruction to us. It helps us live so that we can be safe, happy, and blessed. It is not up for revision. You can't just pick that parts you like. God wants you to obey Him and all of His Word. And if you do, the blessings are countless!
