

SHERIDAN

EST. 1967

To our local community friends.

Sheridan Arncliffe has been part of your local community for over 20 years. We are proud to be one of the first Sheridan stores and have been available to serve our customers and community through generations of families.

We are reaching out as recently we have had increasing challenges sharing our private carpark with the community, particularly on Sunday mornings where local organisations patrons fill our carpark before trade leaving no car parks available for our staff or customers.

Sheridan's carpark is a private carpark not a council carpark however previously we made the decision to stop locking up the carpark overnight or towing cars as we aim to be good community members and know that even if you aren't shopping with us today, you may be customers in the future.

We are asking for your support to continue operating in this fashion by advising with your communities regarding the use of our carpark. We will begin using light duty bollards to rope off some of the carparks on Saturday night so they are available for our staff and our customers, especially those with mobility challenges. We ask that these reservations be respected. If so, this will allow us to continue to leave the remainder of the carpark open for the rest of the community to take advantage of (and hopefully pop into the store).

If this solution does not work, we may be in a position where we need to install security and close off the carpark each night.

Thank you for your support, in advance. If you have any questions or concerns please don't hesitate to reach out using the contact details below, or via email at
